Notes to Interim Financial Statements

Nine months ended September 30, 2008

1. Nature of operations and basis of presentation:

(a) Incorporation:

DOT Resources Ltd. (the "Corporation" or "DOT") was incorporated on May 17, 2007 under the Business Corporations Act (Alberta).

On June 25, 2007, the Corporation entered into an Arrangement Agreement (the "Arrangement") with Alhambra Resources Ltd. ("Alhambra"). Under the terms of the Arrangement, which became effective August 29, 2007, Alhambra transferred its 100% interest in its claim units located in the Province of British Columbia, together with related assets and obligations pertaining thereto (the "Properties"), in exchange for 30,000,000 common shares of the Corporation.

As part of, and concurrent with, completing the Arrangement, the Corporation completed a private placement of 11,500,000 units at a purchase price of \$0.20 per unit for aggregate gross proceeds of \$2,300,000 (the "Private Placement"). Each unit was comprised of one (1) common share and one-half (1/2) of a common share purchase warrant ("Warrant"), with each whole Warrant entitling the holder to acquire one (1) common share of the Corporation at an exercise price of \$0.35 for a term of two (2) years. If the closing trading price of the Corporation's common shares is equal to or exceeds \$0.55 for fifteen (15) consecutive trading days during the term of the Warrants, then the expiry time of the Warrants shall automatically accelerate to the date which is thirty (30) days following the date a news release is issued by the Corporation announcing the reduced expiry time without further notification made by the Corporation, after which the Corporation's Warrants shall be null and void.

(b) Nature of operations:

The Corporation is a development stage company. The business of DOT consists of the exploration and development of its Properties. The Corporation is in the process of exploring its Properties and has not yet determined whether these Properties contain reserves that are economically recoverable. The recoverability of amounts shown for mineral properties and deferred exploration and development costs is dependent upon the discovery of economically recoverable reserves, the ability of the Corporation to obtain necessary financing to develop the Properties and upon future profitable production or the sale thereof.

(c) Basis of presentation:

These financial statements have been prepared by management in accordance with accounting principles generally accepted in Canada. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. Actual results may differ from these estimates.

The Corporation has completed the initial stage of its exploration program and is currently assessing the results to determine the scope of the next stage of the exploration program. Its ability to continue to conduct exploration activities beyond this initial exploration program is dependent upon the nature and extent of the exploration, the possible exercise of the Warrants

Notes to Interim Financial Statements

Nine months ended September 30, 2008

issued as part of the private placement and DOT's ability to raise additional capital to fund such exploration activity.

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles applicable to a going concern, which assume that the Corporation will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

If the going concern assumption was not appropriate for these financial statements, material adjustments would be necessary to the carrying amounts of the assets and liabilities, the reported revenue and expenses and the balance sheet classifications used.

2. Significant accounting policies:

These interim financial statements have been prepared by management following the same accounting policies and methods that were used and disclosed in the audited financial statements for the period from incorporation on May 17 to December 31, 2007, except as disclosed below. These interim financial statements include all adjustments necessary to present fairly the results for the interim period ended September 30, 2008. These interim financial statements should be read in conjunction with the most recent audited financial statements and notes filed on SEDAR for the period from incorporation on May 17 to December 31, 2007.

The following summarizes accounting changes that will be relevant to the Company's financial statements, effective January 1, 2008.

(a) Capital disclosures:

Effective January 1, 2008 the Company adopted CICA Handbook Section 1535 "Capital Disclosures". This Handbook Section requires companies to disclose their objectives, policies and processes for managing capital as well as compliance with any externally imposed capital requirements. The disclosures required by adoption of this section are presented in note 8.

(b) Financial instruments disclosures and financial instruments presentation:

Effective January 1, 2008 the Company adopted CICA Handbook Section 3862 "Financial Instrument – Disclosures" and Section 3863 "Financial Instruments – Presentation and Disclosure". These standards were adopted prospectively and require companies to provide information about the nature and extent of risk arising from financial instruments and how an entity manages those risks. The disclosures required by adoption of this section are presented in note 9.

(c) International financial reporting standards:

In February 2008, the CICA Accounting Standards Board ("AcSB") confirmed the changeover to International Reporting Standards ("IFRS") from Canadian GAAP will be required for publicly accountable enterprises interim and annual financial statements effective for fiscal years beginning on or after January 1, 2011. The AcSB issued the "omnibus" exposure draft of IFRS with comments due by July 31, 2008, wherein early adoption by Canadian entities is also permitted. The Canadian Securities Administrators ("CSA") has also used Concept Paper 52-402, which requested feedback on the early adoption of IFRS as well as the continued use of US GAAP by domestic issuers. The eventual changeover to IFRS represents a change due to new

Notes to Interim Financial Statements

Nine months ended September 30, 2008

accounting standards. The transition from current Canadian GAAP to IFRS is a significant undertaking that may materially affect the Corporation's reported financial position and results of operations.

Although the Corporation has not completed development of its IFRS changeover plan, when finalized it is anticipated that it will include project structure and governance, resourcing and training, an analysis of key GAAP differences and a phased plan to assess accounting policies under IFRS as well as potential IFRS 1 exemptions. The Corporation anticipates completing its project scoping, which will include a timetable for assessing the impact on data systems, internal controls over financial reporting, and business activities, such as financing and compensation arrangements, prior to December 31, 2009.

3. Mineral properties and deferred exploration and development costs:

Of the \$2,372,021 in costs recorded to September 30, 2008, a total of \$933,424 represents costs expended on the Properties by Alhambra and sold to the Corporation pursuant to the Arrangement (see note 1(a)). No depletion or depreciation has been recorded during the period. Details of total mineral properties and deferred exploration and development costs are as follows:

| | Nine months ended | Period from Incorporation on May 17 |
|------------------------------|--------------------|-------------------------------------|
| | September 30, 2008 | to December 31, 2007 |
| Balance, beginning of period | \$ 1,533,946 | \$ - |
| Acquisition cost | _ | 933,424 |

| Balance, end of period | 5,749,999 | \$ 319,547 | 5,749,999 | \$ 319,547 | |

(d) Options:

The Corporation has a stock option plan under which directors, officers, employees and consultants of the Corporation are eligible to receive stock options. The aggregate number of common shares to be issued upon the exercise of all stock options granted under the plan shall not exceed 10% of the issued common shares of the Corporation at the time of granting of the options. Options granted under the plan generally have a term of three years but may not exceed five years and vest at terms to be determined by the directors at the time of grant. The exercise price of each option shall be determined by the directors at the time of grant but shall not be less than the price permitted by the policies of the stock exchange(s) on which the Corporation's common shares are then listed.

Notes to Interim Financial Statements

Nine months ended September 30, 2008

A summary of the status of the Corporation's stock option plan is as follows:

| | Nine months ended | | | Year ended | | | | |
|--|---------------------|----|-------|-------------------------|----|---------|--|--|
| | September 30, 2008 | | | <u>December 31, 200</u> | | | | |
| | Weighted Average | | | | W | eighted | | |
| | | | | | а | verage | | |
| | Number exercise | | | Number | е | xercise | | |
| | of options | | price | of options | | price | | |
| Granted and outstanding, end of period | 2,325,000 | \$ | 0.20 | 2,325,000 | \$ | 0.20 | | |
| Exercisable, end of period | 1,743,750 | \$ | 0.20 | 581,250 | \$ | 0.20 | | |

The following table summarizes information about stock options outstanding and exercisable at September 30, 2008.

| | | Outstanding Weighted | | Exercisable Weighted |
|----------------|-----------|-------------------------|-----------|-------------------------|
| | | average remaining | | average remaining |
| | | contractual | | contractual |
| | | life | | life |
| Exercise price | Number | (years) | Number | (years) |
| \$ 0.20 | 2,325,000 | 1.91 | 1,743,750 | 1.91 |

(e) Contributed surplus:

A reconciliation of contributed surplus is provided below:

| | Nine months ended | Period from incorporation |
|----------------------------------|--------------------|--------------------------------|
| | September 30, 2008 | on May 17 to December 31, 2007 |
| Balance, beginning of period | \$ 244,184 | \$ - |
| Stock-based compensation expense | 99,560 | 169,359 |
| Upon issue of Agent options | _ | 74,825 |
| Balance, end of period | \$ 343,744 | \$ 244,184 |

5. Related party transactions:

(a) On August 29, 2007 the Corporation and Alhambra entered into an Administrative and Corporate Services Contract (the "Contract") whereby the Corporation agrees to engage Alhambra to provide management, administration and corporate services to the Corporation. The Contact provides for a monthly remuneration of \$20,000 plus all reasonable out of pocket expenses and is for an indefinite term but may be terminated by either party upon providing thirty (30) days prior written notice. During the three and nine months ended September 30, 2008, the Corporation paid \$60,000 and \$180,000, respectively (\$20,000 – during the three months ended September 30, 2007, as well as during the period from incorporation on May 17 to September 30, 2007) to

Notes to Interim Financial Statements

Nine months ended September 30, 2008

Alhambra in management fees under the Contract. The amount owing under the Contract as of September 30, 2008 was \$nil.

(b) During the three and nine months ended September 30, 2008, the Corporation incurred \$1,278 and \$11,663, respectively (\$26,903 – during the three month ended September 30, 2007, as well as during the period from incorporation on May 17 to September 30, 2007) in costs from a law firm in which an officer of the Corporation is a partner. These amounts were charged to legal expenses.

These transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

6. Supplemental cash flow information:

Changes in non-cash working capital are as follows:

| | | | | | | Pe | riod from | |
|--|-----------------------|------|-----------------|------------|---------------------|----------------|-----------------|--|
| | Nine | | | | | | rporation | |
| | Three | Mont | hs Ended | Mon | ths Ended | d on May 17 to | | |

| | 2008 | | 2007 | | 2008 | | 2007 | |
| Accounts receivable | \$ 13,475 | \$ | (4,635) | \$ | 59,547 | \$ | (4,635) | |
| Accounts payable and accrued liabilities | 19,518 | | 8,575 | | (126,510) | | 8,575 | |
| Due to Alhambra Resources Ltd. | _ | | 49,946 | | _ | | 49,946 | |
| | \$ 32,993 | \$ | 53,886 | \$ | (66,963) | \$ | 53,886 | |
| Relating to: Operating activities Investing activities | \$ 24,371 8,622 | \$ | 53,886 — | \$ | 59,494 (126,457) | \$ | 53,886 | |
| | \$ 32,993 | \$ | 53,886 | \$ | (66,963) | \$ | 53,886 | |

7. Loss per share:

Basic and diluted loss per share is calculated using the weighted average number of shares that during the three and nine months ended September 30, 2008 was equal to 41,500,001 shares (during the period from incorporation on May 17 to September 30, 2007 – 9,764,707 shares). Excluded from the calculation for both periods were 5,749,999 warrants and 2,325,000 options as their effect would have been anti-dilutive.

8. Management of capital:

The Corporation defines capital that it manages as its shareholders' equity. The Corporation's objective when managing capital is to safeguard its ability to continue as a going concern so that it can continue to maintain investor confidence and to not expose the Corporation to excess risk. As DOT is a development stage company, it is dependent on external financing to fund its exploration programs and pay for administrative costs. Due to the fact that the Corporation does not have cash flow from operations to service debt financing, the Corporation's capital programs are funded through equity financing.

Notes to Interim Financial Statements

Nine months ended September 30, 2008

Management reviews its capital management approach on an ongoing basis. There were no changes to this approach during the nine months ended September 30, 2008. The Corporation is not subject to externally imposed capital requirements.

9. Financial instruments:

(a) Overview:

The Corporation has exposure to the following risks from its use of financial instruments:

- (i) Credit risk
- (ii) Liquidity risk
- (iii) Market risk

This note presents information about the Corporation's exposure to each of the above risks, the Corporation's objectives, policies and processes for measuring and managing risk. Further quantitative disclosures are included throughout these financial statements.

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. These risks are discussed with Management and to the extent the Board determines that the risks are of such a nature that they need to be mitigated, procedures are put in place. To date, no specific risk management tools have been put in place to mitigate these risks.

(b) Credit risk:

Credit risk is the risk of financial loss to the Corporation if a customer or counterparty to a financial instrument fails to meet its obligation.

Cash and cash equivalents consist of bank balances and short-term deposits that are redeemable at any time at the option of the Corporation. The Corporation manages the credit exposure related to short-term investments by depositing the cash equivalents only with large banks within a particular region which management believes the risk of loss to be remote. Accounts receivable primarily relate to GST receivable from the government of Canada, the credit risk of which is considered very low.

The carrying amount of accounts receivable and cash and cash equivalents represents the maximum credit exposure. The Corporation does not have an allowance for doubtful accounts as at September 30, 2008 nor was it required to write-off any receivables during the nine months ended September 30, 2008.

(c) Liquidity risk:

Liquidity risk is the risk that the Corporation will not be able to meet its obligations as they come due. Due to the fact that the Corporation has no operations that generate cash flow to meet such obligations, and it is an exploration company, the Corporation requires external financing to ensure all of its obligations are met on a timely basis. To date the Corporation has been successful in raising the funds necessary to meet its obligations and fund its capital program. The ability of the Corporation to raise capital in the future will directly affect its liquidity and future development of the Properties. The global financial crisis has an impact on the Corporation

Notes to Interim Financial Statements

Nine months ended September 30, 2008

through the deteriorated equity market conditions, and has negatively affected the ability of the Corporation to raise capital to finance its future activities.

(d) Market risk:

Market risk is the risk that changes in market prices, such as foreign currency exchange rates, commodity prices and interest rates will affect the Corporation's net earnings. The objective of market risk management is to manage and control market risk exposures within acceptable limits, while maximizing returns. Due to the fact that the Corporation does not currently operate in foreign jurisdictions, does not sell or buy commodities and does not have debt financing, it is not subject to market risk.

(e) Fair value of financial investments:

The Corporation's financial instruments as at September 30, 2008 include cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities. The fair values of these financial instruments approximate their carrying amounts due to their short terms to maturity.
